Emily Brown (Junior Full-Stack Developer)

Summary: Emily is a junior full-stack developer with 2 years of experience, primarily in JavaScript but with some exposure to TypeScript. She has worked on smaller-scale projects, focusing on front-end and back-end functionality and collaborating with senior developers on more complex tasks.

Experience:

Junior Full-Stack Developer at Beta Solutions (1 year): Contributed to a web-based project management tool using JavaScript and started transitioning to TypeScript. Developed features for the dashboard and worked on creating user authentication with Node.js. Assisted in bug tracking and resolution.

Web Developer Intern at Gamma Tech (1 year): Helped in the development of a custom content management system using JavaScript and jQuery. Worked on frontend improvements to improve user experience and collaborated on database schema design for the back-end API.
